

Freshwater Railway Station Bus Interchange and Car Park Upgrade

Queensland Rail is continuing to upgrade the bus interchange and carpark at Freshwater Railway Station.

Due to weather and construction impacts, the new bus interchange will be completed in late June 2018.

A new carpark of approximately 20 bays on Meller Street is now open for customer use.

In addition, new accessible car parking spaces have been constructed on the Kamerunga Road side of the station and will be open for use at the end of June.

An extension of the platform is also being undertaken to enable a 15-carriage train to safely manage passenger movements. These works will continue to be undertaken during standard working hours.

Queensland Rail apologises for any inconvenience caused by these activities and appreciates your patience while we work to improve your station.
